## Filters

Hand-drawn diagram of a neural network architecture. The diagram shows an input layer with three nodes labeled 'distance', 'price', and 'Filters'. These are connected to a hidden layer with three nodes labeled 'distance', 'price', and 'Filters'. The hidden layer is then connected to an output layer with three nodes labeled 'distance', 'price', and 'Filters'. The entire diagram is enclosed in a large, irregular, hand-drawn oval shape.

⑦ search

A hand-drawn diagram of a billiard table. At the top, there is a wavy line representing a cushion. Below it, three pockets are shown, each with a number and a label: '1 Estimate Annual', '2 Distance', and '3 Selling Price'. The labels are written in a stylized, handwritten font. The pockets are represented by simple rectangular shapes with a smaller rectangle inside, and the numbers are written in the top left corner of each pocket.
